Milk and nothing else

OUR PRODUCTS

"Milk and nothing more" is the slogan that is the basis of every product of TM Family Dairy Farms. This is not just a slogan, but a promise that every sip, every bite contains only the best of nature.

Our craft production is located in the Rivne region, in the picturesque village of Zdovbytsia, on the territory of a large industrial farm. It is here that our cows give fresh milk every day, which immediately goes to the production facility, where the most delicate cheeses, flavorful sour cream, thick yogurt and butter are born.

Our products are real craft products that differ from mass production. What does craft mean? It is not just small batches and partially manual labor, it is a conscious approach focused on quality and naturalness. Craft products are now in trend because they give authenticity, which is increasingly important for the modern consumer. Taste and quality is something that is difficult to find in large chains, but you will always find it with us.

We believe that real milk does not need any unnecessary additives. That is why our products have a short shelf life - so you can always be sure of their freshness. Craft dairy products by Family Dairy Farms are created for those who appreciate real taste, trust nature and are looking for authentic products for themselves and their loved ones.

Drinking cow's milk "Fermerske"

Volume
1000 ml

7 days
expiration date

Fresh and delicious farm milk collected from cows
that eat only natural feed
